

## Telophase Corporation Announces Award the Content Management-Web Services Support at the Computational and Information Sciences and Technology Office (CISTO)

---

**Arlington, VA – April 8, 2008**

Telophase Corporation, a leading 8(a) systems integrator for the federal government, announced today that it was awarded the content management web services support contract. The award was a direct sole source.

Telophase is tasked to develop and deploy a custom content management system for organizing and facilitating collaborative creation of documents and other content for the MU-SPIN/CISTO framework. Our web-based CMS tool will manage websites and web content and the tool shall simplify the administration of disparate websites and require minimal effort to set up, shall be flexible, scalable and provide a system for managing web content and web users that is ideal for project groups, communities and intranets.

Telophase's support will include the following: Web Content Management, Operations and Maintenance, and Documentation Support.

"Telophase is very excited to be partnering with CISTO. Our dedicated resources and subject matter experts are looking forward to working with creating a beneficial online education tool", Jamil Husain, President and CEO.

### **About NASA Computational and Information Sciences and Technology Office (CISTO)**

The Computational and Information Sciences and Technology Office (CISTO) provides Information Technology (IT) and computational services to support the Sciences and Exploration Directorate (SED). This includes access to high-performance computing and networking, mass storage and information systems technologies, and computational science expertise. The Office also engages in a number of educational and outreach programs.

CISTO is SED's interface with Goddard's Chief Information Officer and IT organizations in Code 700 regarding IT security policy, implementation, and services; Enterprise Architecture development and compliance; strategic IT investment planning and management; and implementing NASA and Goddard IT policies and initiatives to ensure compliance. CISTO also develops strategies to optimize cost-effective use of information technologies.

### **About Telophase**

Founded in 1998, Telophase's mission is to provide innovative information technology solutions and services to federal and commercial clients by offering a unique value proposition that focuses on engaging customers in a highly tailored, personalized manner. Telophase empowers clients by assisting them in leveraging advanced technologies to improve productivity, enhance collaboration, secure information, streamline decision-making, and provide better service to their customers and stakeholders. Telophase associates have received numerous awards and accolades from clients such as the Department of Defense Tricare Management Activity (TMA) for their outstanding performance in support of the Military Health System (MHS) information systems environment.
