

Telophase Corporation Announces Award of the DoD National Security Education Program's NSEPnet v.2 Information Technology Support Contract

Arlington, VA – April 9, 2010

Telophase Corporation, a leading 8(a) systems integrator for the federal government, announced today that it was awarded the development and implementation of the Department of Defense National Security Education Program's NSEPnet v.2 Information Technology Support Contract. The award was an 8(a) set-aside.

Telophase Corporation is providing services that are critical to the functionalities to NSEP. Telophase has the sole responsibility to upgrade and maintain the NSEPnet website and the associated online database. It will also require that Telophase host and maintain the web-based interface of NSEPnet v.1 and v.2 and furthermore, provide technical assistance to approved users.

Telophase's support will include the following: Project Management, Business and Functional Analysis, Hosting, Help Desk, Certification and Accreditation (DIACAP compliance) and Website Tracking.

With our work on the National Student Tracking Education Program, we have a good feel of the goals and expectation of NSEP. With NSEPnet v.2, we hope to dramatically improve database management and minimize the number of staff hours spent on data entry and provide ease of access to data to maintain accurate information", said Eric Sudol, Executive Vice President.

About NSEP

The National Security Education Program (NSEP) is a major Federal initiative designed to build a broader and more qualified pool of U.S. citizens with foreign language and international skills. It consists of five initiatives that represent broad strategic partnerships with the U.S. education community designed to serve the needs of U.S. national security and national competitiveness. These initiatives integrate the best components of language learning and international education developed in conjunction with progressively minded partners throughout the U.S. education community.

NSEP focuses on the critical languages and cultures of Asia, Africa, Eastern Europe, the Middle East, and Latin America. Participants are involved in innovative, intensive, and long-term programs designed to provide meaningful opportunities to gain significant competencies in these languages and cultures.

NSEP is unique in the commitment of its award recipients to proceed into public service upon completion of their academic studies. Each NSEP award recipient must demonstrate a commitment to bring his or her extraordinary skills to the Federal Government through employment within one of its many agencies and departments.

About Telophase

Founded in 1998, Telophase's mission is to provide innovative information technology solutions and services to federal and commercial clients by offering a unique value proposition that focuses on engaging customers in a highly tailored, personalized manner. Telophase empowers clients by assisting them in leveraging advanced technologies to improve productivity, enhance collaboration, secure information, streamline decision-making, and provide better service to their customers and stakeholders. Telophase associates have received numerous awards and accolades from clients such as the Department of Defense Tricare Management Activity (TMA) for their outstanding performance in support of the Military Health System (MHS) information systems environment.
